

CEN 4010 Team Project – Iteration 3

Implemented Requirements:

The team has continued to update the code by finishing up the remaining requirements for the project and for Iteration 3. Additionally, refactoring was done to separate the GUI layer (PracticeWindow class) from the logic layer (PracticeLogic class). The PracticeLogic class acts as a facade that provides services and data to other classes. After this refactoring, internal components interact with the logic layer instead of the GUI layer directly.

We were able to implement the following remaining features for this iteration:

- Algorithm for random sheet music generation.
- Rhythm accuracy calculation.
- Updated GUI appearance and updated instruction screen.

These features correspond with our requirements regarding random note generation and rhythm accuracy as outlined in Iteration 0. For more details regarding our design, implemented features, and comparisons with initial Iteration 0 requirements, see the included README.

While this is the completed version of our system and the end of road for this project, there are still plenty of features that could be added and expanded upon. A few of these features include dots, ties, and key signatures. Adding features like these to the sheet music generation would allow the user to have a deeper understanding of sheet music and give them the opportunity to practice at a higher level than is possible right now. Another feature that could be added is the option for the user to choose the difficulty of the sheet music being generated. This would greatly help the user as they could choose to start out easily if they are a beginner and incrementally challenge themselves more as time goes on. These are features that could be implemented and expanded upon past this iteration.

Our JUnit test cases mainly focus on testing the methods of internal components and the PracticeLogic facade as well as code coverage. Black-box testing ideas were used to test equivalence partitions and boundary values of those partitions, and white-box testing ideas were used to add new tests to cover a larger percentage of the code.

Use Cases:

The team identified the following use cases based on the requirements we chose to implement for the last iteration:

1. **Name:** Navigate Screens

Actor: User

Preconditions: None (program just opened).

Description: The user just opened the program and is met with the start page. They then navigate to the practice screen but decide to check the instruction screen once more before returning to the practice screen.

Steps (Two-column Format):

Actor Actions	System Responses
1. User presses ENTER key	2. Instructions screen is displayed
3. User presses ENTER key	4. Practice screen is displayed
5. User presses BACKSPACE key	6. Instruction screen is displayed
7. User pressed ENTER key	8. Practice screen is displayed

2. **Name:** Input Keys

Actor: User

Preconditions: User is at the practice screen

Description: The user is at the practice screen and presses note inputs related to the notes they see on the screen. The system reads each input and colors the note gray if correct and pink if incorrect.

Steps (Two-column Format):

Actor Actions	System Responses
1. User enters correct musical note input	2. Current note is colored gray
3. User enters incorrect musical note input	4. Current note is colored pink
5. User repeats step 1 and 3 until the entered notes equals the number of notes on the staff	6. System stops accepting note input until a new attempt is started.

3. **Name:** View Accuracy Scores

Actor: User

Related Use Cases: Includes: Input keys

Preconditions: User is at the practice screen.

Description: The user enters note input, attempting to match the sequence of notes on the staff. Finally, the system displays all three accuracy scores upon

the user entering a number of notes that equals the number of notes on the staff.

Steps (Two-column Format):

Actor Actions	System Responses
1. Input keys	2. Attempt counter is incremented 3. Pitch accuracy scores are displayed 4. Rhythm accuracy scores are displayed 5. Total accuracy scores are displayed

4. **Name:** Reset Attempt Counter

Actor: User

Related Use Cases: Includes: Input keys

Preconditions: User is at the practice screen and has a number of current attempts.

Description: The user enters note input, attempting to match the sequence of notes on the staff. All three accuracy scores are displayed to the user upon entering a number of notes that equals the number of notes on the staff. After some number of attempts as described above, the user makes the optional choice to reset the attempt counter, which sets the attempt counter and all average accuracy scores to 0 (default when no attempts have been completed).

Steps (Two-column Format):

Actor Actions	System Responses
1. Input keys	2. Attempt counter is incremented 3. Pitch accuracy scores are displayed 4. Rhythm accuracy scores are displayed 5. Total accuracy scores are displayed
6. User enters CTRL + R	7. Attempt counter is set to 0 8. Average pitch accuracy between attempts is set to 0 9. Average rhythm accuracy between attempts is set to 0

	10. Average total accuracy between attempts is set to 0
--	---

5. **Name:** Start New Attempt

Actor: User

Related Use Cases: Includes: Input keys

Preconditions: User is at the practice screen.

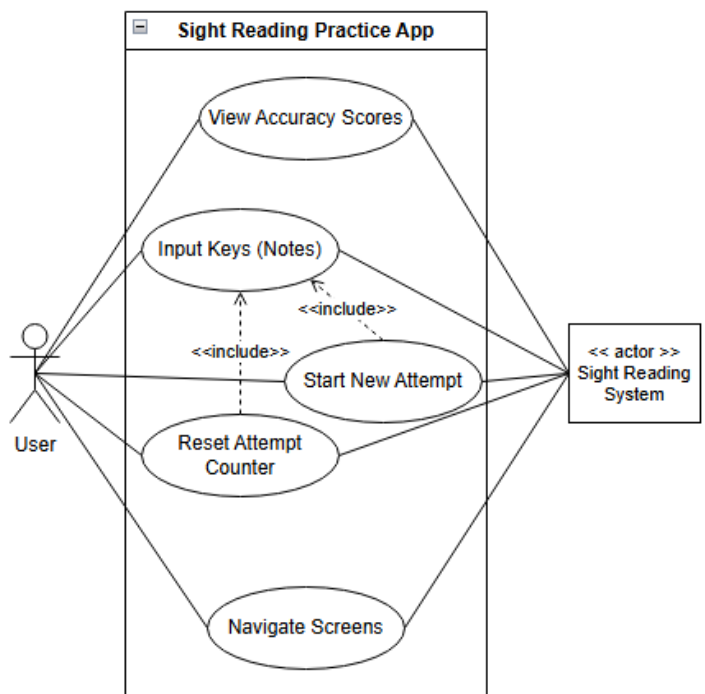

Description: The user enters note input, attempting to match the sequence of notes on the staff. The user enters a number of notes that equals the number of notes on the staff. The accuracy scores get displayed and the user continues to the next attempt

Steps (Two-column Format):

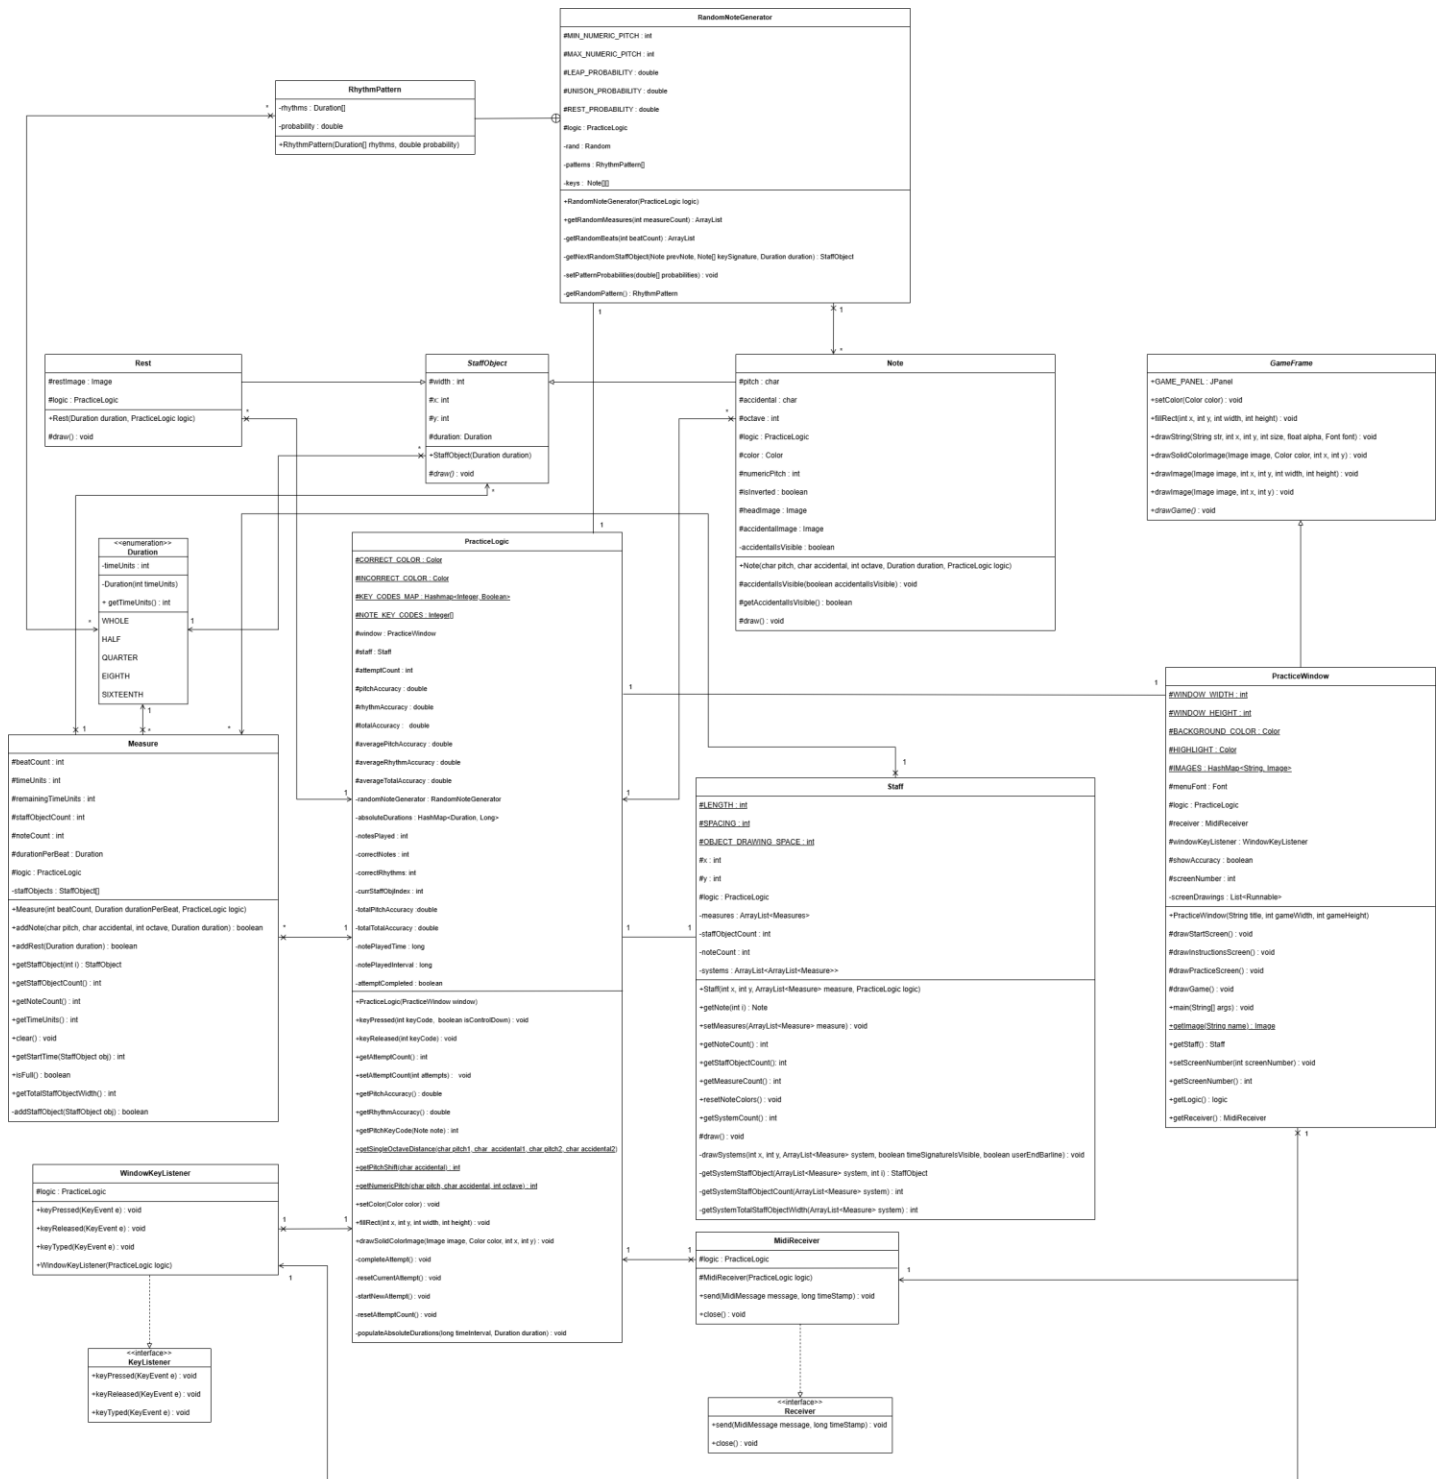

Actor Actions	System Responses
1. Input keys	2. Attempt counter is incremented 3. Pitch accuracy scores are displayed 4. Rhythm accuracy scores are displayed 5. Total accuracy scores are displayed
6. User presses ENTER key	7. Accuracy scores are hidden 8. A new set of randomly generated black notes are shown

Use Case Diagram:

Our use case diagram is the same as in iteration 2, but the two-column formats have been updated to portray the functionality of the final program.

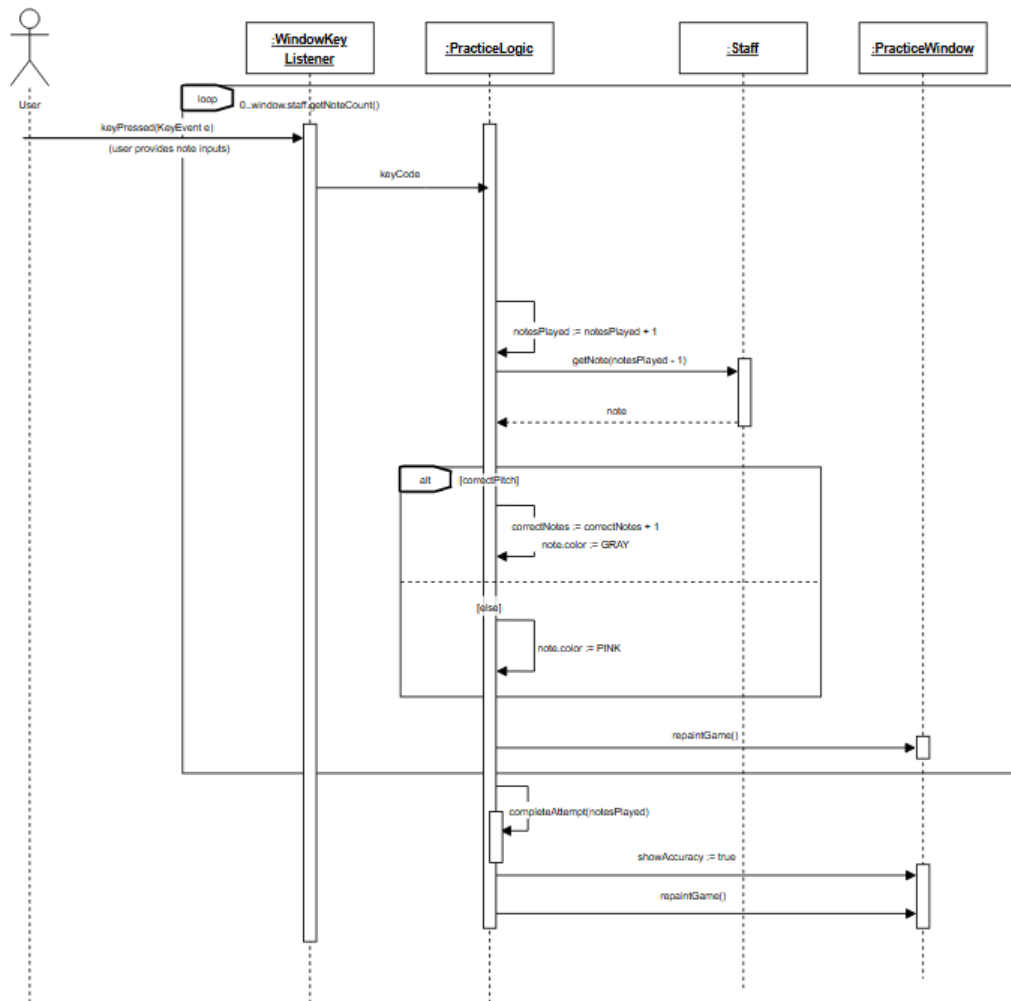

Our new UML diagram demonstrates the facade pattern as the GUI class (PracticeWindow) and the user input classes (WindowKeyListener and MidiReceiver), which are connected to each other, are not connected to any internal components.

Instead, they are connected to the PracticeLogic class (the facade) which all other internal components interact with. Note: all diagrams are also stored in the “docs” directory within our project folder.

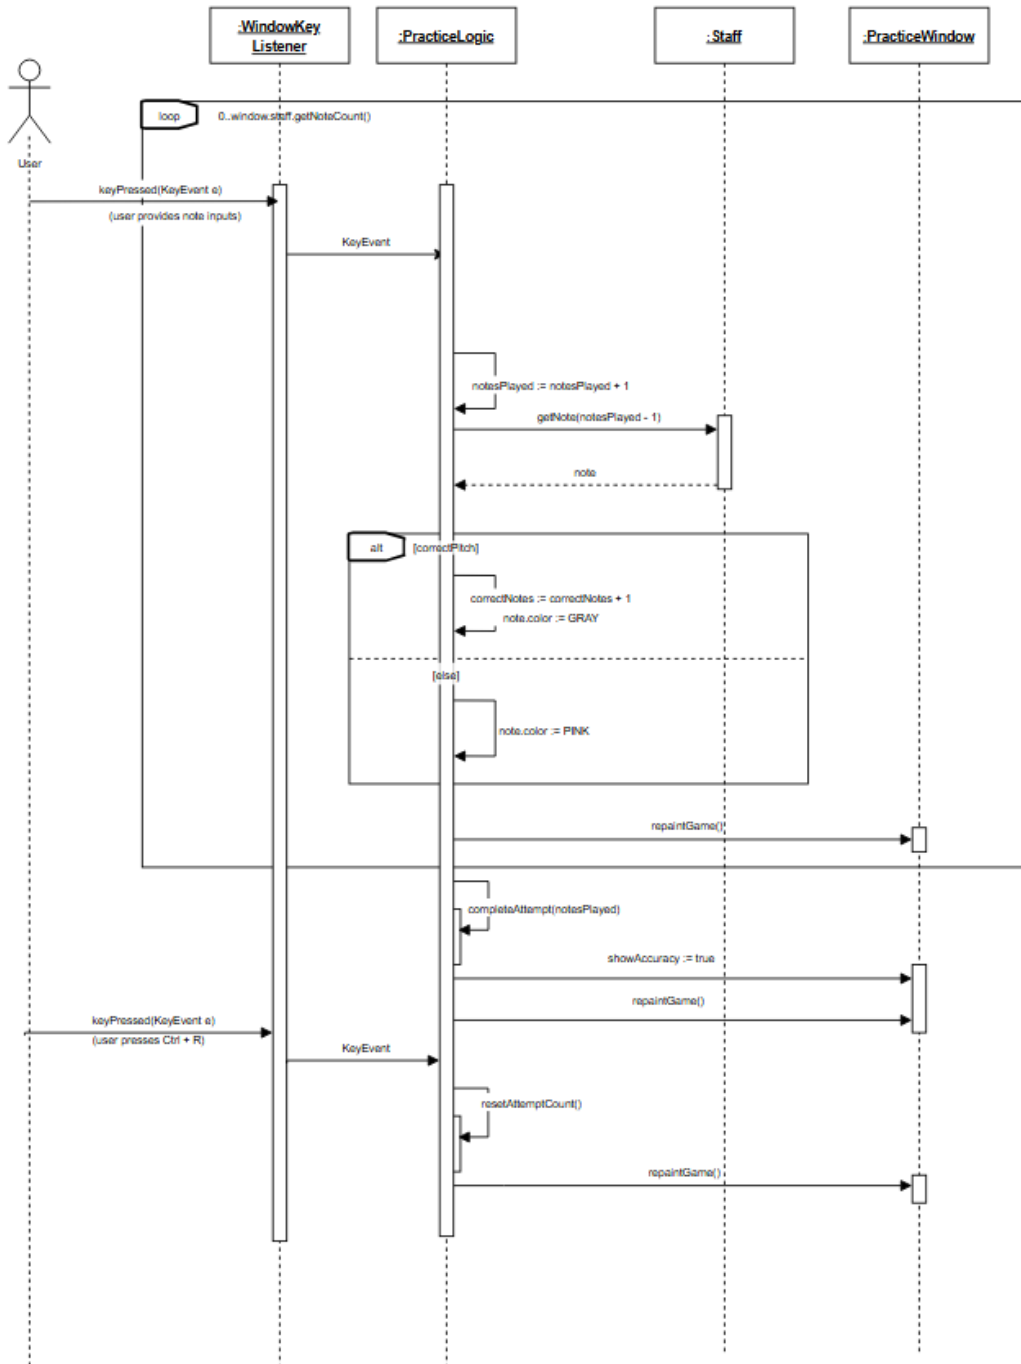

Sequence Diagrams:

1. View Pitch Accuracy Score

This is a sequence diagram for Get Pitch Accuracy. The objects we have are WindowKeyListener, Staff, PracticeWindow, and the facade we added PracticeLogic. The outer loop signifies the KeyListener constantly waiting for input (notes) until the number of notes inputted is equal to or greater than the number of notes on the current sheet of music. The alternative section colors the note GRAY if correctPitch is true. Otherwise, it colors the note PINK. The game is then repainted, and the accuracy scores are displayed.

2. Reset Attempt Counter

This is a sequence diagram for Reset Attempt Counter. The user goes through one attempt by entering notes until the number of notes is equal to or greater than the notes on the music sheet. The user sees their accuracy score and then presses CTRL + R to reset the attempt counter. Here, the facade we implemented for Iteration 3 is also detailed.

System Test Cases:

Note: Due to the inherent non-deterministic nature of our system, our system cases are written with more generality. However, they still test the functionality of the entire system.

1. Name: Correct Notes Played

Goal: Verify that correctly played notes are registered correctly

Test Steps:

1. Launch the PractiKey application.
2. Press “ENTER” on the start screen to navigate to the instructions screen.
3. Press “ENTER” on the instructions screen to navigate to the practice screen.
4. Enter the correct notes that appear on screen (keyboard or MIDI controller input).
5. Finish entering all the notes on the staff (keyboard or MIDI controller input).

Expected Result: The notes entered correctly will turn gray as they are entered, and after all notes on the staff have been entered, the pitch, rhythm, and total accuracy scores will be displayed.

Pass/Fail Criteria: Passes if the attempt counter increases by 1 and if the pitch accuracy score is calculated correctly (assuming the user entered all correct notes, it should be 100%)

2. Name: Incorrect Note Played

Goal: Verify that incorrectly played notes are registered correctly

Test Steps:

1. Launch the PractiKey application.
2. Press “ENTER” on the start screen to navigate to the instructions screen.
3. Press “ENTER” on the instructions screen to navigate to the practice screen.
4. Enter at least one note that does not appear on screen (keyboard or MIDI controller input).
5. Finish entering all the notes on the staff (keyboard or MIDI controller input).

Expected Result: The notes entered incorrectly will turn pink as they are entered, and after all notes on the staff have been entered, the pitch, rhythm, and total accuracy scores will be displayed.

Pass/Fail Criteria: Passes if the attempt counter increases by 1 and if the pitch accuracy score is calculated correctly (it should not be 100%).

3. Name: Out of Range Key Pressed

Goal: Verify that unused/out of range keys do not have an effect on the program.

Test Steps:

1. Launch the PractiKey application.
2. Press “ENTER” on the start screen to navigate to the instructions screen.
3. Press “ENTER” on the instructions screen to navigate to the practice screen.
4. Press the “ESC” key on the keyboard (nothing should happen).
5. Press the “A” key on the keyboard (nothing should happen).
6. Press the “S” key on the keyboard (nothing should happen).
7. In general, press any sequence of keyboard keys not indicated as note inputs on the instructions screen or outside the range E3-E6 (inclusive) on a MIDI controller (nothing should happen).

Expected Result: There should be no response from the system after reaching the practice screen.

Pass/Fail Criteria: Passes if the attempt counter stays at 0, no notes are observed being recolored, and no accuracy scores are displayed.

4. Name: Correct Rhythms Played

Goal: Verify that rhythm accuracy is calculated correctly when correct rhythms are played.

Test Steps:

1. Launch the PractiKey application.
2. Press “ENTER” on the start screen to navigate to the instructions screen.
3. Press “ENTER” on the instructions screen to navigate to the practice screen.
4. Enter notes according to the rhythms on the sheet (keyboard or MIDI controller input).
5. Finish entering all the notes on the staff (keyboard or MIDI controller input).

Expected Result: After all notes on the staff have been entered, the pitch, rhythm, and total accuracy scores will be displayed.

Pass/Fail Criteria: Passes if the attempt counter increases by 1 and if the rhythm accuracy score is calculated correctly (assuming the user entered all notes with the correct rhythm, it should be 100%).

5. Name: Incorrect Rhythms Played

Goal: Verify that rhythm accuracy is calculated correctly when incorrect rhythms are played.

Test Steps:

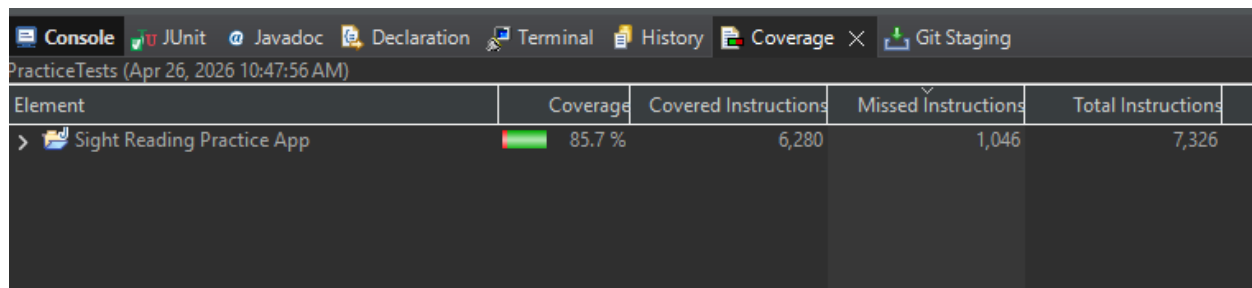

1. Launch the PractiKey application.
2. Press “ENTER” on the start screen to navigate to the instructions screen.
3. Press “ENTER” on the instructions screen to navigate to the practice screen.
4. Enter at least one note with a rhythm that does not follow the rhythms on the sheet (keyboard or MIDI controller input).
5. Finish entering all the notes on the staff (keyboard or MIDI controller input).

Expected Result: After all notes on the staff have been entered, the pitch, rhythm, and total accuracy scores will be displayed.

Pass/Fail Criteria: Passes if the attempt counter increases by 1 and if the rhythm accuracy score is calculated correctly (it should not be 100%).

Unit Test Coverage Report:

Over ten coverage runs of our test case suite using EclEmma in Eclipse, we’ve found that we have an average coverage of 85.5%. We used EclEmma to check coverage and add new unit test cases to increase coverage. We suspect most branches/code blocks not covered by our test cases are covered through more detailed interactions that the user has with the application, which are difficult to simulate using unit tests. Our system test cases should test most of the remaining code. For more details about our design of the test cases, see the included README.

Element	Coverage	Covered Instructions	Missed Instructions	Total Instructions
> Sight Reading Practice App	85.7 %	6,280	1,046	7,326

Coverage as seen in Eclipse.

```

public Note(char pitch, char accidental, int octave, Duration duration, PracticeLogic logic)
{
    super(duration);
    this.pitch = pitch;
    this.accidental = accidental;
    this.octave = octave;
    color = Color.BLACK;
    this.logic = logic;

    // Determine other fields from constructor parameters
    numericPitch = PracticeLogic.getNumericPitch(pitch, accidental, octave);
    isInverted = numericPitch >= 50; // B4 corresponds with a numeric pitch of 50

    // Determine the note head image and accidental image
    headImage = PracticeWindow.getImage("solid_note_head");
    headImage = duration == Duration.WHOLE ? PracticeWindow.getImage("whole_note_head") : headImage;
    headImage = duration == Duration.HALF ? PracticeWindow.getImage("half_note_head") : headImage;
    accidentalImage = null;
    accidentalImage = accidental == '#' ? PracticeWindow.getImage("sharp") : accidentalImage;
    accidentalImage = accidental == 'b' ? PracticeWindow.getImage("flat") : accidentalImage;
    accidentalImage = accidental == 'n' ? PracticeWindow.getImage("natural") : accidentalImage;

    accidentalIsVisible(accidental != 'n');
}

// Sets whether the accidental for this note is visible and recalculates the note's width
protected void accidentalIsVisible(boolean accidentalIsVisible)
{
    this.accidentalIsVisible = accidentalIsVisible;

    // Recalculate the note's width
    width = headImage.getWidth(null);
    if (!isInverted)
    {
        width = duration == Duration.EIGHTH ? width + PracticeWindow.getImage("eighth_flag").getWidth(null) - 3 : width;
        width = duration == Duration.SIXTEENTH ? width + PracticeWindow.getImage("sixteenth_flag").getWidth(null) - 3 : width;
    }
    width += accidentalImage != null && accidentalIsVisible ? accidentalImage.getWidth(null) + 4 : 0;
}

protected boolean getAccidentalIsVisible()
{
    return accidentalIsVisible;
}

```

Example: Coverage of the Note class.

Author: Christian <christianrios246914@gmail.com>

Date: Sat Apr 25 13:23:22 2026 -0400

Revert "Temporarily removed doc files."

This reverts commit 1ff21aedef478c15df0828ae4e5f934f2a4f45377.

commit 1ff21aedef478c15df0828ae4e5f934f2a4f45377

Author: Christian <christianrios246914@gmail.com>

Date: Sat Apr 25 13:15:50 2026 -0400

Temporarily removed doc files.

commit e8bcdeffa94bc2ec87f898568095667b2833c88b

Author: Christian <christianrios246914@gmail.com>

Date: Sat Apr 25 13:05:10 2026 -0400

Removed temporary instruction screen image.

commit 86e0be0361ad4bfb00893cbb34981b0c62532e58

Author: Christian <christianrios246914@gmail.com>

Date: Sat Apr 25 13:00:58 2026 -0400

Completed random note generation algorithm, refactored.

commit fd76a72c443ed06a3cdd6222c9682f9e42931f7b

Author: Christian <christianrios246914@gmail.com>

Date: Thu Apr 23 11:23:31 2026 -0400

Continued refactoring.

commit 6c84050d2da6e43092f42fc0b52f55fdf109988e

Author: Christian <christianrios246914@gmail.com>

Date: Thu Apr 23 10:06:55 2026 -0400

Separated logic from key listener, updated GUI look.

commit 950f4a49d3e61d0c92c840ffd4d131befeec6edc

Author: Christian <christianrios246914@gmail.com>

Date: Wed Apr 22 16:10:06 2026 -0400

Test build before refactoring.

commit 9a00c2ede9ef7c516f5f1458a7589d406cd7ddaa

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 29 23:15:52 2026 -0400

Added all diagrams and the poster to the docs directory.

commit 89e4e3819c104b6294f6d4111ce55eb677198061

Merge: b963299 dd84e73

Author: Levanni <klevannid@gmail.com>

Date: Sun Mar 29 21:03:07 2026 -0400

Merge pull request #12 from UNF-CEN4010/Kemuel

Corrected use case diagram

Updated Iteration 2.pdf with completed use cases, diagrams, and implemented requirements.

commit dd84e73fceb71168e06e61167cbd36e911e6ac62

Author: lxvxnxi <klevannid@gmail.com>

Date: Sun Mar 29 21:00:48 2026 -0400

Corrected use case diagram

Added sequence diagram 1 and 2 to diagrams

Updated Iteration 2.pdf with completed use cases, diagrams, and implemented requirements.

commit b963299e8030ffe6a1127ff5d95872c7ee42586b

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 29 18:35:12 2026 -0400

Swapped lines for a more logical ordering.

commit b41c579699559bac692cb20987d8ed8c555b13d1

Merge: 1be06f1 3b576c1

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 29 17:39:33 2026 -0400

Merge branch 'master' of <https://github.com/UNF-CEN4010/G20.git>

commit 1be06f1700f51c71f5436598dfdf0ed2c364ccec

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 29 17:36:28 2026 -0400

Changed package names, fixed old test case, simplified new test cases.

commit 3b576c1687a87c6450d77e9c26f95c3e990367c8

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 29 16:22:49 2026 -0400

Updating Iteration2 pdf with Junit description and UML Diagram

commit 80064c30410745d0d61a7c6949ccd533421558ff

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 29 15:30:37 2026 -0400

Updated UML class diagram.

commit 80a17eaebb698d563362870b597bcbf8aceee2cf

Merge: 9885c41 e475e27

Author: Levanni <klevannid@gmail.com>

Date: Sun Mar 29 11:56:52 2026 -0400

Merge pull request #11 from UNF-CEN4010/Kemuel

Kemuel

commit e475e27cdd98ebdaac305cef45bcd873055800db

Merge: 5eebb31 9885c41

Author: lxvxnxi <klevannid@gmail.com>

Date: Sun Mar 29 11:53:24 2026 -0400

Merge branch 'master' of <https://github.com/UNF-CEN4010/G20> into Kemuel

commit 9885c417b19688f00dac484e223ffada7d676475

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 29 05:49:45 2026 -0400

Deleting wrong UML Diagram Iteration 2 file

commit b2d6b14c7ee995001a6c76c5cdc7ee3891f31f3f

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 29 05:48:56 2026 -0400

UML Diagram for Iteration 2 png file

commit 64732fb6320f7a2750e2a95e711653dcd3802462

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 29 05:46:12 2026 -0400

UML Diagram for Iteration 2

commit 39458da9fcb82690036376a5e1ec93d9e987b895

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 29 05:45:22 2026 -0400

Iteration 2 test cases added

commit 5eebb31d50751868d94b127aed34c1cdf3b22466

Author: lxvxnxi <klevannid@gmail.com>

Date: Sun Mar 29 04:04:04 2026 -0400

Corrected first sequence diagram v1

commit 44d1b83c3b2e31f1debf692d6601ba21e8a76e14

Author: lxvxnxi <klevannid@gmail.com>

Date: Sun Mar 29 03:45:11 2026 -0400

Added first sequence diagram

commit 18e8f5e9f99f73e24605d40e141dcf4d40aa9ccb

Author: lxvxnxi <klevannid@gmail.com>

Date: Sun Mar 29 02:34:08 2026 -0400

Added introduction and framework for Implemented requirements in the Iteration 2 document

commit 5536721f0e48123523788a1f555c734f9c77f04b

Author: lxvxnxi <klevannid@gmail.com>

Date: Sun Mar 29 02:16:56 2026 -0400

Added Iteration 1 document to directory

Added Iteration 2 blank document to directory

Added Use case diagram to Iteration 2 document

Added Use cases to Iteration 2 document

commit 82fcc2c3448ce3eb862b2875685745f17cc8ae97

Author: lxvxnxi <klevannid@gmail.com>

Date: Sun Mar 29 01:34:23 2026 -0400

Corrected Use Case Diagram

commit a7a44a0cbab26f4f747d9a26382aa4bed072d6f8

Author: lxvxnxi <klevannid@gmail.com>

Date: Sat Mar 28 23:57:05 2026 -0400

Updated Use Case Diagram to current iteration

commit 9dff409fc827df7741b5c03d612224db5e62b612

Merge: 6df0c29 11183b3

Author: christianrios26 <christianrios246914@gmail.com>

Date: Tue Mar 24 09:28:48 2026 -0400

Merge pull request #10 from UNF-CEN4010/christian

Simplified code and improved method names, comments, and encapsulation.

commit 11183b3739cade1a5b6d45250a86954648ce1515

Author: Christian <christianrios246914@gmail.com>

Date: Tue Mar 24 09:27:00 2026 -0400

Simplified code and improved method names, comments, and encapsulation.

commit 6df0c293837935dbf3d0275500f1e5d609db2263

Author: Christian <christianrios246914@gmail.com>

Date: Mon Mar 23 12:56:25 2026 -0400

Changed staff length back from testing value.

commit 174d7bb1ba5439f4b03d2f36eaf9c32c9f672f46

Merge: 94066fd fb54889

Author: christianrios26 <christianrios246914@gmail.com>

Date: Sun Mar 22 20:01:22 2026 -0400

Merge pull request #9 from UNF-CEN4010/christian_refactor

Christian refactor

commit fb5488946d2ca26c6c6dccef126af27c1a7caeb1

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 22 19:59:40 2026 -0400

Added comments and improved encapsulation.

commit a3c5359e2fb82c82b44e6ef70bf533bc11675680

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 22 18:02:41 2026 -0400

Implemented correct drawing of accidentals within measures.

commit b07f52c61ef493366dc713168d5d44723ce694eb

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 22 16:58:00 2026 -0400

Added an additional test for drawing notes on the staff.

commit 1cd6614d852d4c8460e84e1391ed508e530bb1b9

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 22 15:45:59 2026 -0400

Added more drawing functionality and heavily refactored.

commit 11df6af21f7c09074412b0e272820aad0c412eb5

Author: Christian <christianrios246914@gmail.com>

Date: Fri Mar 20 20:34:15 2026 -0400

Heavily refactored, created new classes for dynamic note drawing.

commit 471087ed1ccc09c37a3b98fdde233495bda8c4f5

Author: Christian <christianrios246914@gmail.com>

Date: Fri Mar 20 15:24:34 2026 -0400

Repositioned and added text, added ability to go to previous screens.

commit 581a7d89c0c5a0faa327b707e1dd93510ce30e19

Author: Christian <christianrios246914@gmail.com>

Date: Fri Mar 20 13:10:26 2026 -0400

Added new images, refactored image loading.

commit 94066fdf168ca2bf5e29f399e99fd2d6863e3daa

Author: Christian <christianrios246914@gmail.com>

Date: Fri Mar 20 08:28:53 2026 -0400

Increased screen size, repositioned drawings, updated instructions.

commit 2bb5f181d8434d8cedd050b14ea28b3803de1502

Merge: 00c99b0 5f857c4

Author: christianrios26 <christianrios246914@gmail.com>

Date: Fri Mar 20 07:25:00 2026 -0400

Merge pull request #8 from UNF-CEN4010/Kemuel

Kemuel

commit 5f857c4f8adaad16cb8f5cc4298ab7287c3cc59b

Merge: df3430c 00c99b0

Author: christianrios26 <christianrios246914@gmail.com>

Date: Fri Mar 20 07:24:44 2026 -0400

Merge branch 'master' into Kemuel

commit 00c99b04def87a5444b0a5b0fad74307f1dd449a

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Thu Mar 19 23:21:16 2026 -0400

Extending the Staff to fit more notes

commit b8ab7d571d79f79369c97b2fd8829d0c5a8a44d5

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Thu Mar 19 23:14:46 2026 -0400

Resized window and updated text

commit 1092829b35f26e3fc7c2c2925a957e4c13d68b68

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Thu Mar 19 23:04:42 2026 -0400

Image of keyboard for instruction screen

commit df3430caed36071b23eee41c35a3734efac22703

Author: Levanni <klevannid@gmail.com>

Date: Fri Mar 20 01:25:21 2026 +0300

Made accuracy scores only display at the end of an attempt

commit 4f412f401f31a0e4d897ce8af788a4192c552f84

Author: Levanni <klevannid@gmail.com>

Date: Fri Mar 20 00:49:47 2026 +0300

Displays Rhythm Accuracy on screen

commit 7657021be577f102b1bda5a5c307e59ba8fe41bc

Merge: e238f25 bcf8a12

Author: christianrios26 <christianrios246914@gmail.com>

Date: Thu Mar 19 17:14:24 2026 -0400

Merge pull request #7 from UNF-CEN4010/christian

Removed redundant line.

commit bcf8a124b8675c4de33376a868641b7a5a92b91e

Author: Christian <christianrios246914@gmail.com>

Date: Thu Mar 19 17:13:26 2026 -0400

Removed redundant line.

commit e238f2568889bd0d225c96b86740eddfd3e012d2

Author: Christian <christianrios246914@gmail.com>

Date: Thu Mar 19 15:56:06 2026 -0400

Added start screen image and MIDI input detection, shortened class name.

commit c261b167c6271f41f4c02fc5078ab7d58e965721

Author: Christian <christianrios246914@gmail.com>

Date: Mon Mar 16 15:37:22 2026 -0400

Added method for drawing images and refactored the storing of images.

commit 2a9716c68df0b0f6a00d745d1ea207cb805579a2

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 8 23:27:18 2026 -0400

Refactored JUnit test cases.

commit 34f8e7364f5b24a4e0d7d30eed3972d74b3fc621

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 8 23:08:59 2026 -0400

Test Cases

commit 4294f1686dd1d25c143a31848bddcc20e2adb4c5

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 8 23:02:11 2026 -0400

Test Cases updated

commit c58e2cf170603d183d7b72335c0f593dd3e953c6

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 8 22:27:45 2026 -0400

Some slight code refactoring.

commit dd970cbb81d7f61bea0821ab74dd9f6bf57b2f3b

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 8 19:00:56 2026 -0400

Added additional test cases

commit b6c744583df9ea2e1f12b4d217850daf752a0c26

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 8 17:06:56 2026 -0400

Fixing error

commit 00044463b8933ef03dee08d513c62b26bc6ed5b7

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 8 16:52:07 2026 -0400

adding package

commit 8b6b6c99925a12f8a24fc55b2abc060a90378148

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Sun Mar 8 16:50:16 2026 -0400

Test case for resetAttempts

commit cd6eb66e7709c9e0accd73e7dfedf754278fbc4d

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 8 13:40:29 2026 -0400

Finished merging extra screens and note accuracy changes, fixed bug.

commit 6a073d93745b5b434f776ddbeeb86b28446a88412

Merge: c75d4da 51f8839

Author: christianrios26 <christianrios246914@gmail.com>

Date: Sun Mar 8 13:17:55 2026 -0400

Merge pull request #6 from UNF-CEN4010/christian

Merged extra screens with note accuracy functionality.

commit 51f88398194d4b58167b2e5637ffa83e3b22ca23

Merge: 72f8ffc c75d4da

Author: christianrios26 <christianrios246914@gmail.com>

Date: Sun Mar 8 13:17:16 2026 -0400

Merge branch 'master' into christian

commit 72f8ffc110a7dde4ed751d09d7083f04ce589e39

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 8 13:03:59 2026 -0400

Updated placeholder instruction screen.

commit c75d4daccd0663380e145a8a64586bd0df89b18b

Merge: 9af52c0 5b0ba70

Author: Levanni <klevannid@gmail.com>

Date: Sun Mar 8 11:56:19 2026 -0400

Merge pull request #5 from UNF-CEN4010/Kemuel

Kemuel

commit 5b0ba7050056d2881999d02b289ac36c4f51b531

Author: lxvxnxi <klevannid@gmail.com>

Date: Sun Mar 8 11:48:47 2026 -0400

Fixed correctPitch

commit b3f81add84787ef0c549952df04fe554c7f573f9

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 8 11:27:48 2026 -0400

Added title screen and placeholder instruction screen.

commit 1b1a47aca4ba57e895d737ebf5ee49a9da3820c2

Author: lxvxnxi <klevannid@gmail.com>

Date: Sat Mar 7 22:48:27 2026 -0500

Added attempts and pitch accuracy to interface

commit 1acbff20dd517313667d606ee37682665e9f773b

Author: lxvxnxi <klevannid@gmail.com>

Date: Sat Mar 7 22:46:15 2026 -0500

Implemented color changing notes, ENTER and Ctrl+R command, and Pitch and average Pitch accuracy. Added newAttempt() and resetAttempts()

commit 606392c0caa68df377aae58436a3e61be3602204

Author: lxvxnxi <klevannid@gmail.com>

Date: Sat Mar 7 22:44:25 2026 -0500

Added getTotalNotes(), setNoteColor(), resetNoteColors()

commit 9af52c0a3afb53fe4b349a3cf08127d93c5f46ca

Merge: 4039d5c 253445e

Author: christianrios26 <christianrios246914@gmail.com>

Date: Sat Mar 7 09:58:58 2026 -0500

Merge pull request #4 from UNF-CEN4010/christian

Added detection for keyboard note input and note comparison logic.

commit 253445ec3c6a9fc782a30a2a3fa5d21e4ec0d156

Author: Christian <christianrios246914@gmail.com>

Date: Sat Mar 7 09:55:43 2026 -0500

Added detection for keyboard note input and note comparison logic.

commit 4039d5c3e3b3b1902c20104b0b4c60e31a2e1548

Author: Christian <christianrios246914@gmail.com>

Date: Sat Mar 7 00:56:32 2026 -0500

Fixed note drawing bug.

commit a6f0c597018172729a6861b0d2d076026ccf92ae

Author: christianrios26 <christianrios246914@gmail.com>

Date: Fri Mar 6 22:50:37 2026 -0500

Fixed indentation error.

commit 52bdf4034082b9acc1c767d8faeeb43ef5a1b293

Merge: 1a4f03d e93dff0

Author: christianrios26 <christianrios246914@gmail.com>

Date: Fri Mar 6 22:46:54 2026 -0500

Merge pull request #3 from UNF-CEN4010/christian

Refactored Note class, Staff class, and added basic note drawing.

commit e93dff0c660ddd3f2fbd8756c0e8cba683daa94

Merge: 284d73e 1a4f03d

Author: christianrios26 <christianrios246914@gmail.com>

Date: Fri Mar 6 22:46:27 2026 -0500

Merge branch 'master' into christian

commit 1a4f03d42a5e8cb69c46d07894484a01cd49b7b4

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Fri Mar 6 22:18:28 2026 -0500

Fixed Typo

commit 284d73e722863f047a3ebdfae6170a465ecddc7c

Author: Christian <christianrios246914@gmail.com>

Date: Fri Mar 6 22:12:43 2026 -0500

Refactored Note class, Staff class, and added basic note drawing.

commit 41c11af61ae980f11eff66de098e481511e1a305

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Fri Mar 6 22:11:41 2026 -0500

Added new font and text being displayed

commit 0adff8604b7561d7f319c08d4e96152427a4569c

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Fri Mar 6 22:05:04 2026 -0500

New font added (Californian FB)

commit 82a3a0d202ae044a8c82d18ece8e67efe2ccae33

Merge: 4fdec80 609deb6

Author: Levanni <klevannid@gmail.com>

Date: Fri Mar 6 11:17:11 2026 -0500

Merge pull request #2 from UNF-CEN4010/Kemuel

Note.Java

commit 4fdec8094ecfea109b457635c6713e5721ec2d9d

Merge: 8e7ff77 704dd6e

Author: christianrios26 <christianrios246914@gmail.com>

Date: Fri Mar 6 09:02:12 2026 -0500

Merge pull request #1 from UNF-CEN4010/chrisdev

Add images, diagrams, and staff drawing

commit 8e7ff773961445fdb6846aabce0ed9b34a5e07d

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Thu Mar 5 22:47:42 2026 -0500

Refactor Staff class with package declaration

commit 704dd6eb2f8008e12b0a177d061e732c0087b7dc

Author: Christian <christianrios246914@gmail.com>

Date: Thu Mar 5 22:37:42 2026 -0500

Added keyboard input detection (test for Enter key input).

commit 609deb60739f48a5ad37e91bb866129c06bca75f

Author: lxvxnxi <klevannid@gmail.com>

Date: Thu Mar 5 22:17:59 2026 -0500

Added setColor to change color of note

commit ec2fe8b78652d1cb0395fed800280800f9be19d3

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Thu Mar 5 22:12:21 2026 -0500

Add files via upload

commit f2ecf9a7de9f8f6f959da2363d423e70e94576da

Author: lxvxnxi <klevannid@gmail.com>

Date: Thu Mar 5 22:06:43 2026 -0500

Testing Branch, added test constructor

commit bb92cbab9c1308b93c5e6386873cc7e76e5723dd

Author: Christian <christianrios246914@gmail.com>

Date: Thu Mar 5 22:01:06 2026 -0500

Added initial UML and use case diagrams.

commit ac07b6a5893ee12e9685cf07acbc4d9f962c9a28

Author: ThePotatoSalad <anoschese25@gmail.com>

Date: Thu Mar 5 21:59:22 2026 -0500

Add files via upload

commit 9db75f5bc57370b294c8c6c81dbaf507643c77a9

Author: Christian <christianrios246914@gmail.com>

Date: Thu Mar 5 21:55:07 2026 -0500

Added staff drawing with clef and time signature.

commit 79f67f85944b3d243cc4efd705a7ca82638f96ba

Author: Christian <christianrios246914@gmail.com>

Date: Thu Mar 5 21:38:40 2026 -0500

Added image files.

commit 70d245c9f4b45d39cf8d529d05ae363d127c438b

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 1 13:31:12 2026 -0500

Added additional files in the Eclipse project folder.

commit a7ba8b2e21b44b8aadd2a738122647b5c925b9f2

Author: Christian <christianrios246914@gmail.com>

Date: Sun Mar 1 13:25:42 2026 -0500
